

and put American workers at a greater disadvantage. Come to my district and I will show you the empty fields that used to employ thousands of American workers before NAFTA, which I opposed. Our trade policy might help create jobs and improve the quality of life for workers in other countries but not in the United States.

PIRATES OF THE LAKE

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, Falcon Lake in Zapata County, Texas, is one of the best bass fishing spots in the United States. The lake is an international boundary between Texas and Mexico. That piece of paradise has been intruded on this month by the lawlessness seeping over from the Mexican border. In two separate incidents, U.S. fishermen have been robbed at gunpoint on Falcon Lake by Mexican pirates who held AR-15 rifles to their heads. In one holdup, an American fisherman was robbed of all of his money. In the other pirate raid, fishermen were robbed of their boat, their money and left naked on the Mexican shore. The pirates were in a commercial fishing boat, dressed in black paramilitary garb carrying automatic weapons.

What are these pirates doing on Falcon Lake? Are they moving drugs or people or worse across the water? We don't know. In the 1800s, Thomas Jefferson sent the Navy to protect Americans from pirates in the Mediterranean. This administration is blissfully silent about the pirates on Falcon Lake. Meanwhile, the border war continues.

And that's just the way it is.

WHERE ARE THE JOBS?

(Mr. MICHAUD asked and was given permission to address the House for 1 minute.)

Mr. MICHAUD. Mr. Speaker, in response to the Chamber of Commerce's recently released report that claims U.S. free trade agreements have supported 5.4 million jobs, I have only one thing to say: Not in my district. Since January of 1994, employment in the manufacturing industry in Maine has declined by nearly 40 percent. Just ask the Mainers who used to work at Knight C-Low-Tex in Lisbon Falls or those that used to work at Allen Edmonds Shoe Corporation in Lewiston. The Department of Labor recently certified them to receive trade adjustment assistance, proof that their jobs were lost as a result of our failed trade policies. Our U.S. trade policies might create jobs for big corporations based in Washington, D.C., but it takes them away from middle-class families in Maine.

SHORT LINE RAILROAD TAX CREDIT

(Ms. JENKINS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JENKINS. Short line railroads located in my district, including those in Chanute, Pittsburg and Humboldt, serve a critical role in transporting grain, cement products, steel and other industrial-based products to the national freight rail network. The short line tracks in Kansas and across the Nation have benefited from the section 45(g) short line railroad tax credit which expired at the end of 2009. Without this credit, short line railroads would lose critical resources used to upgrade infrastructure or create jobs, and rural businesses would not have the rail services they need to compete. That's why we must find a responsible way to extend the tax credit, like H.R. 1132, that would extend it until 2012.

I urge all of my colleagues to support this important legislation to ensure short line railroads continue to thrive and provide valuable services on Main Streets across America.

CANCEL ALL FEDERAL CONTRACTS WITH BRITISH PETROLEUM

(Mr. GUTIERREZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUTIERREZ. Yesterday I urged my colleagues to stop drilling leases from going to BP. We need action now. If Congress can stop BP from receiving government leases, then BP can and should stand for Banned Permanently.

But why stop here? We must go further. Today I urge my colleagues to join me to cancel all Federal contracts with BP. How much money are we talking about? In 2009 alone, the Department of Defense paid at least \$1.5 billion to BP—\$1.5 billion with a B. In other words, big profits for them.

We need to audit and to stop our taxpayer dollars from going to BP, a company pumping millions of barrels of black poison into our water and towards our shores. Let's ban permanently BP's black poison and eliminate BP's big profits along with their British pollution.

VALUE-ADDED TAX

(Mr. GUTHRIE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUTHRIE. Mr. Speaker, about 1 month ago was Tax Day, the day that hardworking Americans sent their money to Washington. And sadly, the President and the Democrat majority in Congress continue to advocate for policies that increase taxes and add more government spending, both of which are already out of control. Presi-

dent Obama has refused to renounce the idea of forcing a value-added tax on the American people, and his economic team has already run the numbers. The value-added tax is essentially just a national sales tax that hits everyone who buys any goods, which will cost American families thousands of dollars. This European-style tax wouldn't replace income taxes in this country—it would be on top of them. It's time for Congress to put the American people first and simplify a complicated and overreaching tax code. The American people know that we can't spend and tax our way back to a growing economy.

COMPREHENSIVE IMMIGRATION REFORM

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Congress is elected to solve difficult Federal problems, not walk away from them year after year. Health care reform was a difficult Federal problem with many months of debate and difficult votes, but we did it. Immigration reform is also a difficult Federal problem. At this moment, families are being torn apart. Children and parents live in fear of not seeing each other at the end of the day. In fact, there are cases where our own soldiers are returning from serving overseas, only to find their spouses deported.

Where Congress comes up short, States like Arizona are in full speed, enacting misguided laws like SB 1070 that are inspired by hate and racism. This bill hurts everyone who looks different, whether they're an American citizen, lawful immigrant, or undocumented immigrant. It violates our civil rights. The question now is, Is Congress willing to work together in a bipartisan fashion to fix a system that is broken? Families across America have waited long enough for immigration reform. We must deliver just like we have on health care reform.

FOREIGN-HELD DEBT

(Mr. SAM JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAM JOHNSON of Texas. Last week we learned that Uncle Sam ran up the largest deficit for April ever. Equally alarming is that our deficit is being financed by countries such as China, our biggest holder of U.S. Government debt. Equally important, a former Chinese military official recently suggested the Chinese should consider dumping U.S. treasuries in response to the recent Pentagon decision to sell defensive weapon systems to Taiwan.

To raise awareness of the threat to our economy and national security of our exploding deficit and debt, yesterday I introduced the Foreign-Held Debt Transparency and Threat Assessment Act. This bill would require a better
